DETAILED ACTION

1. Acknowledgement is made of the amendment received on October 11, 2007.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Winston Hsu on November 21, 2007.

The application has been amended as follows:

In Claims:

- (1) In claim 5, line 2; Insert **-to-** between "a control signal generator connected" and "the target clock signal..."

Allowable Subject Matter

3. Claims 1-16 are allowed.

4. The following is an examiner's statement of reasons for allowance: The present invention comprises a phase frequency detector for adjusting the target clock signal and the input/wobble signal to the same phase in an optical disc system, where the phase frequency detector comprises plurality of logic gates and flip flops. The phase of target clock signal and wobble/input signal is adjusted using the two protection signals P1 and P2 i.e. when phase modulated part of wobble signal arrives the protection signal(s) make phase frequency detector not to adjust the phase of target clock and input signal to avoid making the output unstable. The prior art Fushimi et al. (US 6,088,307) discloses a system for adjusting wobble signal a phase adjusting circuit as shown in figure 7A, but fails to disclose using a protection signal and using the components as disclosed in the present invention. Pauls (US 6,285,219) discloses a phase frequency detector with similar arrangement but fails to control the output of flip flops based on the protection signals. Brunn et al. (US 2004/0141577) discloses a phase detector using input data as input signal for flip flops with using any protection signal. The distinct features have been added to the independent claims 1 and 11. Therefore, rendering them allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
